## 100 SERIES OPENABLE WINDOW

A classic dual-panel window crafted with precision for effortless opening and closing. Its dual shutter design ensures maximum ventilation and optimal natural light flow into the room.

#### PRODUCT DESCRIPTION:

- Dual Shutter Design: Two panels that open and close smoothly, providing ease of access and flexibility.
- Enhanced Ventilation: Opens wide to allow maximum airflow and natural light into the room.
- Classic Aesthetic Appeal : Traditional look that suits both modern and rustic interiors.
- Customizable Dimensions: Standard size – 3 ft (W) x 4 ft (H); can be tailored to specific requirements.
- Material Options: Available in both premium WPC and seasoned wood for long-lasting performance.
- Low Maintenance: Termite-resistant and weatherproof surface that requires minimal upkeep.

## 200 SERIES OPENABLE WINDOW WITH MESH

A functional and elegant two shutter window integrated with high-quality mesh for insect protection. Provides the benefits of natural airflow while keeping mosquitoes and dust out. Ideal for homes needing both ventilation and hygiene without compromising on aesthetics.

#### PRODUCT DESCRIPTION:

- Built-in Mesh Layer: High-density mesh integrated seamlessly with the window frame.
- Dual Shutter Functionality: Smooth open-close operation with separate access to mesh and shutter.
- Enhanced Air Circulation: Allows fresh air in while blocking insects and debris.
- Custom Sizes Available: Standard – 3 ft (W) x 4 ft (H); customizable as per your space.
- Durable Construction: Made with WPC or seasoned wood for long-term use and minimal maintenance.

## 300 SERIES OPENABLE WINDOW WITH MESH

Elegant three-panel window with integrated mesh, designed for maximum flexibility and airflow. Each shutter operates independently, offering versatile control of light and ventilation. Ideal for large openings where function meets traditional style with protection.

### PRODUCT DESCRIPTION:

- Triple Shutter Design: Independent movement for customized air and light control.
- Integrated Mesh Panel: Protects from insects while ensuring fresh air flow.
- Material Flexibility: Available in both durable WPC and natural wood finishes.
- Large Coverage Area: Perfect for wide spaces like halls or balconies.
- Custom Dimensions: Standard – 4 ft (W) x 4 ft (H); fully customizable.

## MAIN DOOR FRAME

Crafted for grand entrances, this heavy-duty main door frame offers superior strength and style. Available in both WPC and Teak wood, it resists warping, termites, and moisture. Perfect for front doors where security, appearance, and durability matter most.

### PRODUCT DESCRIPTION:

- Robust Design: Built to support large main doors with excellent load-bearing capacity.
- Weather & Termite Resistant: Especially with WPC – long-lasting with zero maintenance.
- Traditional & Modern Profiles: Available in various designs to suit architectural style.
- Precision-Made: Smooth finish and accurate corner joints for a seamless fit.
- Available Sizes: Standard – 8 x 6.9 ft, customizable on request.
- Material Options: Choose from Solid Teak Wood or WPC depending on budget & usage.

## STANDARD DOOR FRAME

Ideal for interior or secondary doors, this frame balances strength with simplicity. Made from high-quality WPC or wood, it offers durability without compromising on aesthetics. Designed to fit most residential or commercial room doors.

### PRODUCT HIGHLIGHTS:

- Lightweight Yet Strong: Suitable for room and bathroom doors.
- Termite-Proof Options: WPC ensures hassle-free, long-term usage.
- Elegant Finish: Matches modern and traditional door styles.
- Size Variants: Common sizes – 2 x 7 ft and 2.5 x 7 ft.
- Quick Installation: Ready-to-use design reduces on-site labor.
- Wood & WPC Choices: Available in polished wood or matte/textured WPC.

## DESIGNER CARVING WOODEN DOORS

Artistic carved wooden doors designed for luxury entrances and spiritual aesthetics. Each piece is handcrafted with precision detailing on quality hardwood. Perfect for main doors, pooja rooms, or any space that deserves a grand statement.

### PRODUCT DESCRIPTION:

- Intricate Carvings: Floral, temple-style, geometric, or custom motifs.
- Premium Wood Options: Teak, Rosewood, or Manali seasoned wood.
- Polished & Finished: Available in glossy or antique styles.
- Heavy-Duty Construction: Made to support main door usage.
- Custom Size & Design: Tailored as per client theme or vastu.
- Ideal For: Main doors, prayer rooms, villas, and upscale interiors.

## SIMPLE PLAIN WOODEN DOORS

Simple yet elegant, these doors are crafted from seasoned wood for everyday utility. Ideal for rooms and interiors where clean design and functionality matter. Easy to maintain and suitable for both traditional and modern homes.

### PRODUCT DESCRIPTION:

- Made from Solid Wood: High Quality Teak wood and other hardwoods.
- Smooth Flat Finish: Available in matte, semi-gloss, or natural polish.
- Standard Sizes: Typically 3 x 7 ft; customizable.
- Durable & Stable: Seasoned and treated for long-lasting performance.
- Budget-Friendly: Quality with simplicity at a reasonable price.
- Ideal For: Bedrooms, bathrooms, internal room partitions.

## PREMIUM TEAK WOODEN FURNITURE

Crafted from high-quality seasoned wood, our furniture blends timeless elegance with lasting durability. Each piece reflects fine craftsmanship, with attention to detail in every curve and joint. Ideal for homes seeking natural warmth, rich finish, and classic appeal.

### PRODUCT DESCRIPTION :

- Wood Construction: Made from premium Burma teak.
- Elegant Design Options: Traditional, contemporary, and custom styles available.
- Polished Finish: Smooth, glossy or matte finishes that enhance the wood grain.
- Durability & Stability: Built for Long life with minimal maintenance.
- Termite-Treated & Seasoned: Wood is pre-treated for long life and structural integrity.
- Range Includes: Entry Doors , Sofas, dining sets, wardrobes, beds, Rocking chairs and custom furniture.
